

NEOTION successfully goes public on the ALTERNEXT

La Ciotat, June 22, 2006: NEOTION, a leading company in the Digital TV domain, announces the admission of its shares onto the Alternext (Euronext Paris), through direct quotation.

This unique worldwide player acting on the booming Digital TV Market has succeeded to attract numerous professional qualified investors, all motivated by the innovative and patented Technology of the Group, as well as by the strategy conducted by a visionary and experimented Management.

Leveraging on an 8 million Euros fund raising, the company does confirm its ambition of becoming a central player in the Digital TV Universe, thus growing its R&D investments and accelerating its International deployment. The funds raised shall enable the Group to further strengthen its sales forces to then expand its Market share, thus leveraging on the recently launched Pocket dTV - the only credit card size MPEG-4 decoder - the leading product of the company which has been starting to sell right before the 2006 soccer World Cup.

"The listing of the NEOTION shares onto the Alternext, the market of reference for Midcaps, marks an important milestone in the development of the company. Many qualified investors have expressed their confidence and shown a genuine interest for our Strategy. I would like to hereby thank them all very much" declared Jean-Yves LE ROUX, President CEO and Founder of NEOTION.

Alongside with the World first announce made last May with SONY and TPS in relation with the launching of the very first Digital TV sets capable of receiving natively MPEG-4 Pay TV services, NEOTION is working on future partnerships that shall further accelerate its development.

About NEOTION:

NEOTION is a French high-tech company specialised in the digital television market. NEOTION designs, develops and deploys a wide range of products and services dedicated to both the consumer space, and the corporate customers involved in the Media business. In February 2004, NEOTION, through the acquisition of XEOLE, quickly became a major player of the MPEG-4 AVC video compression. In March 2004, NEOTION opened a subsidiary in Asia with office in Shanghai.

Then, in February 2006, NEOTION has successfully launched the credit card format Neotion Pocket dTV: the smallest MPEG-4 digital TV receiver in the World.

Its products are overlapping several booming Markets:

- the Market of secured digital transmission and reception,
- the Market of video compression and digital recordings for TV, PC and DVD,
- the Market of Home Networking and PC-TV Convergence
