Aubagne, June 30th

IRDETO [CI Plus] Module: another World-first from NEOTION!

Beyond being the first and only Module company to date to successfully pass the IRDETO certification process comprising its latest CI Plus library, Neotion is once again achieving a tipping point in the whole Digital TV Industry.

For the first time ever, a new generation secure Module does combine state-of-the-art CI-Plus Technology together with tier-one Conditional Access.

Mass deployment is set to start in Europe this quarter.

About Neotion :

NEOTION is a public company created in January 2000, and listed since June 2006 on Alternext Euronext Paris. NEOTION is a leading provider of highly-sophisticated System-on-a-Chip (SoC) MPEG-4 processors, as well as turnkey sub-systems and reference designs enabling seamless integration and unrivalled time to market for the Consumer Electronics Industry and the TV Operators.

NEOTION's secured silicons uniquely combine: MPEG-4, advanced security modes, and hybrid IP connectivity opening sidewise also towards digital home convergence, IPTV and TV 2.0.

NEOTION is the inventor of the original MPEG-4 decoder in a card designed for Common Interface receivers (iDTV and STB). NEOTION offers a compelling range of disruptive MPEG4 Modules enabling, beyond MPEG-4 upgrade, secured silicon based Security, DVR functions in a SD-Card, and Hybrid IP home network capabilities for genuine legacy TV sets.

Side to breakthrough Modules, NEOTION has designed the NP5 series processors that are able to power ultimate low cost / ultra low power boxes tailored for green field broadcast TV Markets (DTT and DTH), as well as for Telecom Operators looking for simple IP box solutions in a multi room and home network context.

NEOTION also offers reference designs, API, SDK, and development boards enabling various levels of implementation and customization (from application specific, to dedicated chipset ROM code).

Neotion is an active stakeholder of the CI Plus LLP, as well as a member of DVB, DigiTAG, the Digital TV Group, Open IP TV Forum and UPnP Forum.
